

Гл. ас. Иван Ангелов Илиев, доктор, участник в конкурс за заемане на академична длъжност „доцент” по научно направление 4.3. Биологични науки, специалност 01.06.10 Биохимия, обявен в ДВ, брой 57 от 10. 07. 2018 г.

Списък на научни публикации

I. Научни публикации за придобиване на образователна и научна степен „Доктор”

1. **Илев I.**, R. Toshkova, L.Yossifova, P. Dolashka-Angelova, J. Yaneva, S. Zacharieva: Hemocyanins from *Rapana venosa* and *Helix vulgaris* Display an Antitumor Activity via Specific Activation of Certain Immune Cells, C. R. Acad. Bulg.Sci., 2008, 61(2): 203-210, Print ISSN: 1310–1331, Online ISSN: 2367–5535, **IF: 0,152**
2. Yossifova L., **I. Илев**, S. Petkova, P. Dolashka-Angelova, L. Mihov, S. Zacharieva. Immunological research on the protective properties of a conjugate of total larval antigen with hemocyanin derived from *Helix vulgaris* against infection with *Trichinella spiralis*. Biotechnol. & Biotechnol. EQ., 2009, 23(SE): 597-600, Print ISSN: 1310-2818, Online ISSN: 1314-3530, **IF: 0,291**
3. Dolashka-Angelova P., L. Velkova, **I. Илев**, A. Beck, A. Dolashki, L. Yossifova, R. Toshkova, W. Voelter, S. Zacharieva. Antitumor Activity of Glycosylated Molluscan Hemocyanins via Guerin ascites tumor. Immunol Invest. 2011, 40(2): 130-149, Print ISSN: 0882-0139, Online ISSN: 1532-4311, **IF: 1,164**

II. Научни публикации за участие в конкурса за заемане на академична длъжност „Доцент”

Публикации в международни списания с Impact Factor

4. Koprinarova M., P. Markovska, **I. Илев**, B. Anachkova, G. Russev. Sodium butyrate enhances the cytotoxic effect of cisplatin by abrogating the cisplatin imposed cell cycle arrest. BMC Mol. Biol. 2010, 11(1): 49; Online ISSN: 1471-2199, **IF: 3,188**
5. Boteva B., R. Mateva, **I. Илев** and G. Gorneva. Flow cytometric analysis of the influence of myosmine on the cell cycle. Croatica chemica Acta (2011), 84 (3) 355-359; ISSN: 0011-1643, **IF: 0,763**
6. Sainova, I., I. Vavrek, V. Pavlova, **I. Илев**, L. Yossifova, E. Gardeva and E. Nikolova. Experimental model for safe in vitro- and in vivo-influence of internal and external factors of cell differentiation. Afr. J. Pharm. Pharmacol. (2011), 5(6): 186-191, ISSN: 1996-0816, **IF: 0,667**
7. Kraicheva I., I. Tsacheva, E. Vodenicharova, E. Tashev, T. Tosheva, A. Kril, M. Topashka-Ancheva, **I. Илев**, Ts. Gerasimova, K. Troev. Synthesis, antiproliferative activity and genotoxicity of novel anthracene-containing aminophosphonates and a

- new anthracene-derived Schiff base. *Bioorganoc & Medicinal Chemistry*. 2012, 20: 117-124; ISSN: 0968-0896, **IF: 2,978**
8. Kril A., M. Topashka-Ancheva, **I. Iliev**, T. Gerasimova, I. Kraicheva, I. Tsacheva, E. Vodenicharova, and K. Troev. *In vitro* antitumor activity, genotoxicity, and antiproliferative effects of aminophosphonic acid diesters and their synthetic precursors. *Zeitschrift fur Naturforschung C*, (2012), 67: 473-480, Online ISSN: 1865-7125, **IF: 0,604**
 9. Kraicheva I., Vodenicharova E., Shivachev B., Nikolova R., Kril A., Topashka-Ancheva M., **Iliev I.**, Georgieva A., Gerasimova T., Tosheva T., Tashev E., Tsacheva I., Troev K. Anthracene-derived bis-aminophosphonates: Crystal structure, in vitro antitumor activity, and genotoxicity in vivo. *Phosphorus, Sulfur and Silicon and the Related Elements*, (2013), 188 (11), 1535-1547, Print ISSN: 1042-6507, Online ISSN: 1563-5325, **IF: 0,620**
 10. Kraicheva I., Vodenicharova E., Shivachev B., Nikolova R., Kril A., Topashka-Ancheva M., **Iliev I.**, Georgieva A., Gerasimova T., Tosheva T., Tashev E., Tsacheva I., Troev K. Synthesis, characterization, antitumor activity and safety testing of novel polyphosphoesters bearing anthracene-derived aminophosphonate units, *Bioorganic & Medicinal Chemistry*, 2014, 22: 874-882, ISSN: 0968-0896, **IF: 2.793**
 11. Milcheva R., D. Ivanov, **I. Iliev**, R. Russev, S. Petkova and P. Babal. Increased sialylation as a phenomenon in accommodation of the parasitic nematode *Trichinella spiralis* (Owen, 1835) in skeletal muscle fibres. *Folia Parasitologica*, (2015), 62: 049, Online ISSN: 1803-6465, **IF: 1,271**
 12. Kolyovska V. V. Pavlova, **I. Iliev**, S. Todorov, D. Maslarov. Low salt diet is associated with the prevention of exacerbation in patients with relapsing remitting MS. *Journal of Pharmacy and Pharmacology*, (2015), 3: 170-172, Online ISSN: 2042-7158, **IF: 2.363**
